

"Tried Others—Back to Tuxedo!" Say These Railroad Firemen

Keeping the steam up in a fast locomotive is a man's job—and that's why the brawny railroad firemen of the South must have a man's tobacco to keep their own steam up.

They smoke Tuxedo because it's the only tobacco that thoroughly satisfies and refreshes them—and they can smoke it all day and enjoy it every minute.

Note how enthusiastic these men are about Tuxedo—especially those who have tried other brands. They always come back to Tuxedo.

Small wonder! For there's no other tobacco like it.

Tuxedo is made of the mild, sweet top and center leaves of the Burley tobacco plant—no strong, oily bottom leaves such as are used in most pipe tobaccos.

And the great original "Tuxedo Process," which absolutely removes all the bite, makes Tuxedo the mildest, most enjoyable of smokes.

That "Tuxedo Process" has 'em all guessing. No other tobacco can use it—but plenty try to imitate it.

And as a lot of these railroad firemen have discovered for themselves, not one of the imitations begins to equal the original.
